ROUMANIA NEAR THE WHIRLPOOL

German Press Believes Roumania Will Enter Fray on Side of Entente Powers at Any Moment.

BULGARS PEEVED BECAUSE TROOPS ARE CONCENTRATED ON FRONTIERS

Constantinople's Fall Forecasted by Removal of Financial Institutions and Placing Germans in Charge of All Guns—Russ City of Pinsk Falls—Hindenburg Stopped—British Casualties on Dardanelles Up to Aug. 21, Total 87,630.

By Associated Press.

London, September 16.—A Copenhagen dispatch says German newspapers were permitted yesterday to publish sensational telegrams intimating that Roumania's participation in the war may be expected at any minute.

The massing of German and Austrian troops on the Roumanian frontier, has resulted in the Balkan nation's making preparation for eventualities.

A large part of her army already has been mobilized, and reservists in other countries have been ordered home.

A steadfast refusal of Roumania to permit the transportation, through her territory by Germany, of military supplies for Turkey, is supposed to have aroused the animosity of the central empires.

Recent advices from Rome were to the effect that negotiations were under way for the formation of a new Balkan league, to be composed of Roumania, Serbia and Greece.

Bulgaria, it was said, was not included in the negotiations, because of her agreement with Turkey, by which she will obtain possession of territory along the Dedeaghat railway.

Montenegro probably would act in accord with the other three powers.

Rome, September 16.—Because of the concentration of Greek and Roumanian troops on the Bulgarian frontier, the Bulgarian foreign minister has instructed the representatives of that country at Athens and Bucharest, to request an immediate and definite explanation, according to a Sofia dispatch.

Press dispatches from Bucharest state that the Turks already have begun to carry out the provisions of the Turco-Bulgarian agreement.

They have abandoned the barracks at Kraghatch and destroyed the forts on the right bank of the Moritza river, taking the guns and barbed wire to the Gallipoli peninsula.

London, September 16.—Coincident with Earl Kitchener's optimistic remarks in the House of Lords, concerning the position of the Russian armies, they are not only pressing their attacks against the Austrians in Galicia, but are holding up the German rush in mid-Poland.

The Russians also assert they have thrown back the invaders where the German cavalry cut the Petrograd railroad between Dvinsk and Vilna.

The Russians lately have been taking more prisoners than they have been losing.

It is said here that von Hindenburg's drive is losing its vigor, while

von Mackensen is striving to overcome the difficulties of the marsh country.

London, September 16.—The Admiralty announced today that in all probability the British submarine E-7 had been sunk off the Dardanelles.

The British casualties at the Dardanelles, up to August 21, were 87,630. The number of killed in that time was 17,608.

Berlin, September 16.—The capture of the Russian city of Pinsk was announced today at army headquarters.

The occupation marks an eastward advance by the Germans of nearly 100 miles since the taking of Brest Litovsk on August 25.

Further successes have been secured by the Germans in their fight for Riga, Berlin claims today.

London, September 16.—All governmental financial institutions are making preparations to move to the interior of Asia Minor and, for fear of an insurrection in the Turkish army, all artillery will be placed in charge of Germans, according to an Athens dispatch.

AUSTRIAN WAS ON LAKE BOAT

By Associated Press.

Cleveland, September 16.—The crew of the steamer Onoko, which sank in Lake Superior Tuesday, was examined here today, to learn whether there was a plot to prevent the vessel's cargo of wheat from reaching the Allies, to whom it was consigned.

Captain Dunn reported there were indications that the vessel's plates had been loosened.

A watchman on the ship said an Austrian, who shipped for the trip from Milwaukee to Duluth, acted queerly, and constantly complained about the condition of the boat.

NO CONFERENCE ON MEXICAN SOIL

By Associated Press.

Washington, September 16.—The positive statement that the conference between the Mexican leaders and the Pan-American conferees is unlikely to take place on Mexican soil, will be made today at the State Department.

NEGROES SAY SHE PLOTTED MURDER

The case of Mrs. C. Franklin Mohr, the wealthy Providence (R. I.) woman, will be heard first when the grand jury meets Sept. 20. Three negroes, held for the shooting of her husband, are said to have confessed that she plotted his death.

U. S. BANKERS ARE AFTER SIX PER CENT.

New York, September 16.—Members of the Anglo-French financial commission and American bankers, working for the success of the proposed billion dollar credit loan to Great Britain and France, have somewhat different ideas, it became known today, as to some of the terms governing the loan, chief of which is reported to be the rate of interest.

The commission is reported to believe the maximum rate should be 5 per cent. Many American bankers believe the rate should be at least 5½ per cent, while there is some talk of requiring 6 per cent.

A possibility that was widely discussed today, was that the big credit loan would be used to pay only for foodstuffs and other necessities, and that payment for war munitions would be made in gold.

Millions in pledges, it was reported, had already been secured, and more pledges were tentatively assured.

New York, September 16.—Standard Oil millionaires, including John D. Rockefeller, Jr., is was reported today, are considering the terms of the proposed billion dollar credit loan to Great Britain and France, with a view to participating.

TROUBLE IN RUSSIA

By Associated Press.

London, September 16.—Reuters' Petrograd correspondent telegraphs that the Russian Duma will be prorogued today, until the middle of November.

Military and civil authorities in Petrograd and Moscow have taken steps to forestall popular demonstrations.

Differences of opinion between the cabinet and the Duma have been clearly defined since the formation yesterday of a majority in the Duma of Liberal and Progressive elements. The new majority put forward a reform program, and it was reported the cabinet might resign.

FATHER SHOTS LITTLE DAUGHTER FOR BURGLAR

By Associated Press.

Cleveland, September 16.—Maxine Rice, aged 6, who was shot by her father in mistake for a burglar early today, will recover, doctors at the hospital said today.

EX-GOVERNOR BURIED TODAY

By Associated Press.

Eaton, September 16.—Military honors were accorded Colonel Andrew L. Harris, former governor of Ohio, at his funeral held here today.

A company of the Ohio National Guard acted as guard of honor, and Governor Willis delivered a eulogy.

BUSY WOMAN WANTS DIVORCE

By Associated Press.

Cleveland, September 16.—Mrs. Effie A. Babst, insurance agent and inventor of a railroad appliance, today filed suit for divorce against Carl M. Babst, an attorney and Mayor of Crestline.

MEXICANS LEAVE TRAIL OF BLOOD

By Associated Press.

Brownsville, Texas, September 16.—Bandits, believed to be those who recently killed two American civilians, were discovered today on the Fresno tract, ten miles north of here.

When fired on by a party of civilians and soldiers, the Mexicans fled, leaving a trail of blood.

They were being pursued through the brush late today.

LEWIS OPPOSES MONSTER LOAN

By Associated Press.

Chicago, September 16.—Senator J. Hamilton Lewis, today made public a letter, protesting against the proposed billion dollar war loan.

He sent the letter to Secretary McAdoo and the Federal Reserve Board.

MILLIONS ARE LOST BY AMERICAN PACKERS

By Associated Press.

London, September 16.—The British prize court today condemned the greater part of the American products forming the cargoes of four steamships.

The products, valued at several million dollars, are declared forfeited to the crown.

Most of the cargoes consisted of meats. The court explained that more than thirteen times the amount of such goods ordinarily sent to Copenhagen composed these shipments, and that it was plain they were intended for re-shipment to Germany, for use of soldiers.

In one case, the court said, an

American company, in the 3 weeks after the outbreak of the war, sent twenty times more lard than in similar periods of peace.

Thousands of tons of meat were sent to Denmark, although very little had been sent before the war, the court declared.

The practice of giving false names for products, by neutral shippers, was criticized severely by the court.

Chicago, September 16.—The meat cargoes confiscated by Great Britain will be a complete loss to the packers, according to Thomas E. Wilson, president of Morris & Company, as there were no advance payments made on the shipments.

RUSSIA CALLS TERRITORIALS

By Associated Press.

Petrograd, September 16.—An imperial ukase was issued today calling to the colors reserves of the territorial army.

The senate is instructed to determine the ages and number of the reserves, and the districts from which they shall be called.

400,000 BOYS TO BE CALLED TO THE COLORS

By Associated Press.

Paris, September 16.—Parliament, on re-assembling today, will have to consider, among various important measures, one calling to the colors a contingent of 400,000 young men, who in time of peace, would begin military service in 1917. They are 18 and 19 years old.

U. S. NOTE ARRIVES

By Associated Press.

Berlin, September 16.—The American ambassador, James W. Gerard, received today a communication from Washington, bearing on the Arabic case and the submarine problem.

LINER ASHORE

By Associated Press.

Marseilles, France, September 16.—The liner Euphrate, of 6,800 tons, has gone ashore on the island of Socotra, in the Indian Ocean.

Passengers and crew have been taken off. It is feared the Euphrate will be a total loss.

CONFERENCE IS NEAR THE END

Akron, O., September 16.—Officials of the Northeast Ohio Methodist Episcopal Conference announced today that election of delegates to the general conference, and re-districting the conferences of the state, would not be called up before Friday.

Assignments will probably be reached this evening.

MEXICANS CELEBRATE

By Associated Press.

Brownsville, Texas, September 16.—Beginning last midnight, the start of Mexican Independence Day, there was much shooting and shouting along the Mexican side of the river, but no disorders were observed and no threats toward the American side of the river.

ROUMANIA NEAR THE WHIRLPOOL

German Press Believes Roumania Will Enter Fray on Side of Entente Powers at Any Moment.

BULGARS PEEVED BECAUSE TROOPS ARE CONCENTRATED ON FRONTIERS

Constantinople's Fall Forecasted by Removal of Financial Institutions and Placing Germans in Charge of All Guns—Russ City of Pinsk Falls—Hindenburg Stopped—British Casualties on Dardanelles Up to Aug. 21, Total 87,630.

All Americans Advised to Leave
Northern Mexico.

CONSULS ALSO MAY DEPART

State Department Warns Americans Not to Cross the Border into Mexico on Account of Disturbed Conditions. Villistas in Washington Issue Protest, While Carranza's Adherents Rejoice.

Washington, Sept. 16.—Americans in northern Mexico, particularly in the states of Sonora and Chihuahua, will be urged by the administration to remove at once to the United States. This action was decided on at the state department.

Conditions along the boundary are declared to be responsible for this action. The state department has reached the conclusion that Villa and his subordinates are not in position to prevent depredations by lawless bands infesting many districts in northern Mexico, and that it would be unwise, therefore, for Americans to remain longer in those regions. It is the intention of the state department to withdraw consular officers from the northern districts just as soon as they have been cleared of Americans. Action in this regard will not be based on any general order for the withdrawal of consuls, but will depend entirely upon circumstances in each district.

The state department also issued a warning to Americans not to cross the border into Mexico at this time on account of the disturbed conditions along the international boundary. The department's announcement is as follows: "Owing to disturbed conditions prevailing along the Mexican border, the department repeats the advice

heretofore given to American citizens to remain on this side of the international line for the present."

Officials were careful to explain that this action with reference to conditions along the border had no bearing on the administration's course toward the general problem of Mexico. It is declared that this action is not intended as any reflection against Villa, and that it is not to be regarded as the forerunner of more drastic moves in Mexico generally.

Villa's Protest.

Villa's representatives here are indignant at the action decided on by the administration. They protested that Villa exercised full control over all forces operating in his territory and that such territory was free of any depredations against Americans or foreigners generally.

The Villa agent, Enrique Llorente, went to the extreme of addressing a communication to the state department making inquiry as to the purpose of this government in warning Americans to quit northern Mexico. A protest was made by Mr. Llorente against statements attributed to government officials that depredations and lawlessness in Villa territory impelled them to warn Americans to get out of northern Mexico as soon as possible. In view of these statements, wrote Mr. Llorente, "I can not refrain from vigorous protest against such imputations."

There is enthusiasm among the Carranza people just now, as they claim to be convinced that the Pan-American conference will decide in favor of accepting Carranza's invitation for a joint conference on the border and that it will ultimately decide in favor of Carranza's recognition.

BIG APPLE SHOW AND HOME COMING

London, O., Sept. 15.—Governor Willis and G. A. R. day at the Lawrence county homecoming and apple show was attended by throngs of visitors from all over the country. Governor Willis was greeted by thousands. The governor led the auto parade and made a speech at the reviewing stand. He also addressed the G. A. R. Among the most prominent homecomers are Former United States Treasurer C. A. Thompson and Colonel E. S. Wilson.

SEND TOOPS TO ITALIAN FRONT

Rome, Sept. 16.—The first hint that Austria has reduced the numerical strength of her armies fighting the Russians, probably of the forces in Galicia, where the Russians are lately gaining, and sent them to reinforce the troops trying to stem the tide of the Italian invasion, came in the official Italian war report, which says that the Austrians are receiving "considerable reinforcements" and have endeavored to assume the offensive at several points of the front, though unsuccessfully. The frequent use of aeroplanes both by the Austrians and Italians also is illustrated by the Italian report.

CORONER'S VERDICT ON ORIENT WRECK

Circleville, O., Sept. 16.—Coroner O. H. Dunton rendered his verdict on the Baltimore and Ohio wreck at Orient Aug. 12, in which seven lives were lost, holding that Conductor L. A. Schloffer, Flagman R. H. Fuller and Engineer Fred Stepaens were guilty of negligence. The Baltimore and Ohio railroad is also blamed for contributory negligence.

GERMAN ADVANCE NOW SLOWING UP

Encountering Stubborn Opposition By the Russians.

HINDENBURG NEARING DVINSK

Teuton Commander Preparing to Attack That Fortified Area—Russians Still on the Offensive in Galicia. Increased Activity Noted on Italian Front—Heavy Guns in Action in the Western Zone.

London, Sept. 16.—Dispatches from the eastern front intimate that General Von Hindenburg's drive toward the Dvinsk-Vilna railway is not progressing as fast as his previous enterprises of a similar kind have done, and except at one or two points about midway between these towns, where his cavalry have cut the railway, he is still being stubbornly opposed by the Russians, who are making vigorous counter attacks. Von Hindenburg, however, has reached a point west of the bridgehead across from the town

of Dvinsk and is preparing to attack that fortified area.

Along the rest of the line the German advance has also slowed up, while in Galicia the Russians are still attacking, and, according to unofficial reports, the Austro-German armies are falling back across the Dniester river. Just north of the Galician border the Russians also are on the offensive and are making an attempt to recapture the fortress of Dubno, which the Austrians took last week.

This offensive in the south, it is believed, will have an effect on the rest of the front, as reinforcements must soon be sent there or the Teutonic allies will run the danger of being outflanked.

Despite this, the Austrians have sent reinforcements against Italy and have at some parts of the line assumed the offensive. The country is so rough and the Italians since they declared war have been so successful in capturing important positions for defense, that an advance by the Austrians can not for some time threaten the defenders. The operations, however, are likely to take on a more interesting character.

The heavy guns continue their bombardment along the western front, and in the Vosges another battle is in progress for possession of Hartmans-Weckerkopf, which has changed hands often during the past few months.

According to dispatches from Holland, the British warships have again attacked the German positions on the Belgian coast. Air raids by allied airmen on towns now occupied by the Germans, and by Zeppelins on England, are daily occurrences.

TO THE POINT

State Comptroller Emerson C. Harrington decisively defeated United States Senator Blair Lee for the Democratic nomination for governor at the Maryland primary.

A number of London theaters announced that evening performances will begin at 7 and close at 9:40. Closing earlier enables people to reach home before Zeppelins appear.

Because of lack of funds there will be no state life shoot at Camp Perry this year. This has been announced definitely to national guard officers by the adjutant general of Ohio.

RULING OF TURNER IS PASSED UP

Donahey Holds Up Pay of Provisional Appointees.

Columbus, Sept. 16.—State Auditor Donahey held up the pay of Republican provisional appointees in spite of the opinion rendered him by Attorney General Turner that the attached certificate of the civil service commission made it incumbent upon him to issue pay warrants. In all but one case heads of departments accepted warrants for their permanent employees, leaving the question of pay for temporary employees to be adjusted later. The exception was Secretary of State Hildebrand, who refused to accept approval of part of the payroll for his department unless all of it was approved. The result was that nobody in that department was paid. Donahey remarked that as long as Hildebrand kept his payroll locked up in his safe, the state was earning 2 per cent interest on it. Hildebrand said both he and the men in his department felt that they could wait for their pay until all his employees could get what was due them.

Donahey said the attorney general had not answered with sufficient definiteness his question whether the state would have to pay twice, to pay both the provisional appointee and the ousted employee, in case the ousted man was reinstated as the result of the decision in the pending litigation over the validity of the new civil service law.

In his opinion Turner held that an employee, unlike an officer, had a claim only for services performed, so an ousted employee could not recover from the state the amount of his compensation while out of employment, should it be held he had been illegally ousted.

MESSANGER IS HELD UP

Noblesville, Ind., Sept. 16.—A long bandit boarded passenger train No. 25 on the Lake Erie and Western railroad at Arcadia, eight miles north of here, slipped unobserved into the express car, held up the messenger, rifled the safe of \$2,500 in currency and several packages of jewelry, pulled the airbrake cord, which stopped the train, and escaped in a waiting automobile near Cicero, all in five minutes. So speedy was the work of the robber that not a single passenger on the train knew that a holdup had been committed, and until the messenger, E. A. Williams of Indianapolis, dashed into the station at Cicero, no one else was aware of the deed.

ARCHIBALD TO BE ARRESTED

Washington, Sept. 16.—Following a conference between Attorney General Gregory and District Attorney Marshall of New York at the department of justice, it became practically certain that James F. J. Archibald, the American correspondent involved in the Dumba incident, will be arrested when he lands from the steamer Rotterdam at New York tomorrow.

No decision was reached as to the charge which is to be preferred against Archibald, but little doubt exists in the minds of officials of the department of justice that Archibald will be held on some charge, if only a technical one, pending a final decision by the department as to the course to be taken in his case.

Northern Mexico.**

CONSULS ALSO MAY DEPART

State Department Warns Americans Not to Cross the Border into Mexico on Account of Disturbed Conditions. Villistas in Washington Issue Protest, While Carranza's Adherents Rejoice.

Washington, Sept. 16.—Americans in northern Mexico, particularly in the states of Sonora and Chihuahua, will be urged by the administration to remove at once to the United States. This action was decided on at the state department.

Conditions along the boundary are declared to be responsible for this action. The state department has reached the conclusion that Villa and his subordinates are not in position to prevent depredations by lawless bands infesting many districts in northern Mexico, and that it would be unwise, therefore, for Americans to remain longer in those regions. It is the intention of the state department to withdraw consular officers from the northern districts just as soon as they have been cleared of Americans. Action in this regard will not be based on any general order for the withdrawal of consuls, but will depend entirely upon circumstances in each district.

The state department also issued a warning to Americans not to cross the border into Mexico at this time on account of the disturbed conditions along the international boundary. The department's announcement is as follows: "Owing to disturbed conditions prevailing along the Mexican border, the department repeats the advice

heretofore given to American citizens to remain on this side of the international line for the present."

Officials were careful to explain that this action with reference to conditions along the border had no bearing on the administration's course toward the general problem of Mexico. It is declared that this action is not intended as any reflection against Villa, and that it is not to be regarded as the forerunner of more drastic moves in Mexico generally.

Villa's Protest.

Villa's representatives here are indignant at the action decided on by the administration. They protested that Villa exercised full control over all forces operating in his territory and that such territory was free of any depredations against Americans or foreigners generally.

The Villa agent, Enrique Llorente, went to the extreme of addressing a communication to the state department making inquiry as to the purpose of this government in warning Americans to quit northern Mexico. A protest was made by Mr. Llorente against statements attributed to government officials that depredations and lawlessness in Villa territory impelled them to warn Americans to get out of northern Mexico as soon as possible. In view of these statements, wrote Mr. Llorente, "I can not refrain from vigorous protest against such imputations."

There is enthusiasm among the Carranza people just now, as they claim to be convinced that the Pan-American conference will decide in favor of accepting Carranza's invitation for a joint conference on the border and that it will ultimately decide in favor of Carranza's recognition.

BIG APPLE SHOW AND HOME COMING

Fronten, O., Sept. 15.—Governor's and G. A. R. day at the Lawrence county homecoming and apple show was attended by thousands of visitors from all over the country. Governor Willis was greeted by thousands. The governor led the auto parade and made a speech at the reviewing stand. He also addressed the G. A. R. Among the most prominent homecomers are Former United States Treasurer C. A. Thompson and Colonel E. S. Wilson.

SEND TOOPS TO ITALIAN FRONT

Rome, Sept. 16.—The first hint that Austria has reduced the numerical strength of her armies fighting the Russians, probably of the forces in Galicia, where the Russians are lately gaining, and sent them to reinforce the troops trying to stem the tide of the Italian invasion, came in the official Italian war report, which says that the Austrians are receiving "considerable reinforcements" and have endeavored to assume the offensive at several points of the front, though unsuccessfully. The frequent use of aeroplanes both by the Austrians and Italians also is illustrated by the Italian report.

CORONER'S VERDICT ON ORIENT WRECK

Circleville, O., Sept. 16.—Coroner O. H. Dunton rendered his verdict on the Baltimore and Ohio wreck at Orient Aug. 12, in which seven lives were lost, holding that Conductor L. A. Schieffer, Flagman R. H. Fuller and Engineer Fred Stephens were guilty of negligence. The Baltimore and Ohio railroad is also blamed for contributory negligence.

GERMAN ADVANCE NOW SLOWING UP

Encountering Stubborn Opposition By the Russians.

HINDENBURG NEARING DVINSK

Teuton Commander Preparing to Attack That Fortified Area—Russians Still on the Offensive in Galicia. Increased Activity Noted on Italian Front—Heavy Guns in Action in the Western Zone.

London, Sept. 16.—Dispatches from the eastern front intimate that General Von Hindenburg's drive toward the Dvinsk-Vilna railway is not progressing as fast as his previous enterprises of a similar kind have done, and except at one or two points about midway between these towns, where his cavalry have cut the railway, he is still being stubbornly opposed by the Russians, who are making vigorous counter attacks. Von Hindenburg, however, has reached a point west of the bridgehead across from the town

of Dvinsk and is preparing to attack that fortified area.

Along the rest of the line the German advance has also slowed up, while in Galicia the Russians are still attacking, and, according to unofficial reports, the Austro-German armies are falling back across the Dniester river. Just north of the Galician border the Russians also are on the offensive and are making an attempt to recapture the fortress of Dubno, which the Austrians took last week.

This offensive in the south, it is believed, will have an effect on the rest of the front, as reinforcements must soon be sent there or the Teutonic allies will run the danger of being outflanked.

Despite this, the Austrians have sent reinforcements against Italy and have at some parts of the line assumed the offensive. The country is so rough and the Italians since they declared war have been so successful in capturing important positions for defense, that an advance by the Austrians can not for some time threaten the defenders. The operations, however, are likely to take on a more interesting character.

The heavy guns continue their bombardment along the western front, and in the Vosges another battle is in progress for possession of Hartmannsweilerkopf, which has changed hands often during the past few months.

According to dispatches from Holland, the British warships have again attacked the German positions on the Belgian coast. Air raids by allied airmen on towns now occupied by the Germans, and by Zeppelins on England, are daily occurrences.

TO THE POINT

State Comptroller Emerson C. Harrington decisively defeated United States Senator Blair Lee for the Democratic nomination for governor at the Maryland primary.

A number of London theaters announced that evening performances will begin at 7 and close at 9:40. Closing earlier enables people to reach home before Zeppelins appear.

Because of lack of funds there will be no state rifle shoot at Camp Perry this year. This has been announced definitely to national guard officers by the adjutant general of Ohio.

Red Cross Ball Blue, all blue, best bluing value in the world, makes the laundress smile. adv

Watch Your Children

RULING OF TURNER IS PASSED UP

Donahey Holds Up Pay of Provisional Appointees.

Columbus, Sept. 16.—State Auditor Donahey held up the pay of Republican provisional appointees in spite of the opinion rendered him by Attorney General Turner that the attached certificate of the civil service commission made it incumbent upon him to issue pay warrants. In all but one case heads of departments accepted warrants for their permanent employees, leaving the question of pay for temporary employees to be adjusted later. The exception was Secretary of State Hildebrandt, who refused to accept approval of part of the payroll for his department unless all of it was approved. The result was that nobody in that department was paid. Donahey remarked that as long as Hildebrandt kept his payroll locked up in his safe, the state was earning 2 per cent interest on it. Hildebrandt said both he and the men in his department felt that they could wait for their pay until all his employees could get what was due them.

Donahey said the attorney general had not answered with sufficient definiteness his question whether the state would have to pay twice, to pay both the provisional appointee and the ousted employee, in case the ousted man was reinstated as the result of the decision in the pending litigation over the validity of the new civil service law.

In his opinion Turner held that an employee, unlike an officer, had a claim only for services performed, so an ousted employee could not recover from the state the amount of his compensation while out of employment, should it be held he had been illegally ousted.

MESSANGER IS HELD UP

Noblesville, Ind., Sept. 16.—A long-bandit boarded passenger train No. 25 on the Lake Erie and Western railroad at Arcadia, eight miles north of here, slipped unobserved into the express car, held up the messenger, rifled the safe of \$2,500 in currency and several packages of jewelry, pulled the airbrake cord, which stopped the train, and escaped in a waiting automobile near Cicero, all in five minutes. So speedy was the work of the robber that not a single passenger on the train knew that a holdup had been committed, and until the messenger, E. A. Williams of Indianapolis, dashed into the station at Cicero, no one else was aware of the deed.

ARCHIBALD TO BE ARRESTED

Washington, Sept. 16.—Following a conference between Attorney General Gregory and District Attorney Marshall of New York at the department of justice, it became practically certain that James F. J. Archibald, the American correspondent involved in the Dumba incident, will be arrested when he lands from the steamer Rotterdam at New York tomorrow.

No decision was reached as to the charge which is to be preferred against Archibald, but little doubt exists in the minds of officials of the department of justice that Archibald will be held on some charge, if only a technical one, pending a final decision by the department as to the course to be taken in his case.

Marvels Within Reach of All

That we are living in a wonderful age—perhaps the most wonderful in the history of the world—no one questions. So many marvelous inventions are being made and so many, heretofore supposed impossible mechanical devices are being builded and marketed at such a low cost as to insure their possession by the great majority of families of the great middle class, that we scarcely realize the magnitude of the blessings of the age.

The automobile has passed rapidly from a costly novelty for the few to a comparatively inexpensive blessing and practical benefit to the many. The phonograph has the same history, although the cost of the "talking machine" has not yet been reduced to a figure which warrants the humble home owner in possessing himself of one as a part of the necessary household furniture for the use and pleasure of the family.

The time is near at hand, however, when a phonograph costing the same, proportionately, in the world of talking machines as the "Ford" does now in the world of automobiles, will be on the market.

Millions have been made by the pioneer in the manufacture of automobiles and phonographs and both are being placed on the market now at a cost to the householder which includes only a reasonable profit in excess of the cost of production.

The same thing is true with regard to the manufacture and sale of records for the phonograph. Indeed, we already have the ten cent record on the market as a prophecy of the universal change soon to come. When that change in conditions comes it means that practically every family will be able to hear in their own home by their own fireside all the wonders in the world of sound. It means that the great orators of the age, the great singers, the great masters of musical instruments, individually and collectively, can be heard by the humblest citizen.

It is then only a step for that other wonder of the age, the "movie" to be brought to a practical cost and the families of moderate means everywhere in the land will be able to see the great men and women of their time face to face on the movie screen in their own homes.

The cost now is infinitesimal. The inconvenience to the American now is only that the family must walk a few blocks to see the pictures. Millions have been made in manufacture of films and still more millions by the exhibitors. The development stage is now passing and the next decade will, in all probability, see the movie machine in the home with films by parcel post.

The automobile has eliminated distance and made rural and urban population one. The phonograph and the movie machines are eliminating yet greater distances and sweeping away the barriers of caste and wealth. All are part of a gigantic movement to make the people one class, to make all "acquainted," to bring all ultimately to the same social, moral and educational level.

Encouraging the "Bolters."

The appointment by Governor Cox of members of the Progressive party to those positions in the public service required by law to be filled by members "of opposite" political parties and the course thus followed by Governor Willis, in appointing to those places men who opposed the party in which they claim membership, in the last fall election, was and is, doubtless, done with a view to furthering the interests of their political parties.

Yet such a course may have an effect directly opposite to the one intended.

In following the plan mentioned both of Ohio's chief executive officers believed that it encouraged desertions from the opposite political parties. They believed that if "traitors" as the politicians call them, were rewarded there would be more of them. In holding that opinion they are correct. The plan of its ultimate effect, however, is the most forceful one yet devised for increasing the enlistments in the already great army of independent voters.

In doling out substantial recognition to the men who refuse to follow the lead of party—no matter for what cause—politicians in office who would build up their own political machine are unconsciously and unintentionally destroying the foundation upon which their whole structure is builded—party regularity.

In that particular practice which has sprung up since the birth of the progressive party we see another proof of the truth of the assertion that, no matter what the politicians will or plan the people, after all, rule in this country and each day the army of independent voters increases in spite of the efforts of those who would have it otherwise.

Of course there is the fine spun theory that the men being appointed to office now as being of "opposite politics" is not true in fact but no one has yet had the courage to test that theory out in open battle.

In the meantime we are reminded that the efforts of individuals cannot change the more comprehensive plan and even their activities to change the general trend frequently add strength to the movement they would check or weaken matrially.

Poetry For Today

WHY THE COUNTRY IS SAFE.

Oh, why should you fear for the country m' dear,
Though our canines of war are mere spaniels?
For Woden and Thor are not lords of war
According to Josephus Daniels.
Invention's the thing and the high-brows we sing,
In process of mobilization;
And when they invent with sound and with scent
They will terrify each foreign nation!
There is Wizzard De Mudd who extracts the blood
From turnips by processes painless;
And Professor MacLake who has learned how to make
Best sellers of "Books for the Brainless."
There are chemists, a few, and dis-mologists, too,
All work without any dissensions,
And that's why we know we can very soon blow
Any foe to the fourth of dimensions.
—Chicago News.

Weather Report

Washington, September 16.—Ohio and Indiana — Partly cloudy Thursday, somewhat lower temperature south portion; Friday showers. Tennessee, Kentucky and West Virginia — Generally fair Thursday and Friday; not quite so warm. Lower Michigan — Increasing cloudiness Thursday, probably followed by showers by night; Friday showers.

THE WEATHER

Observations of the United States weather bureau, taken at 7 p. m. Wednesday:

	Temp.	Weather.
New York	83	Clear
Boston	82	Clear
Buffalo	74	Clear

THE WEATHER.

Watch the Changes In the Barometer.

Wonderful Electric Lighting.

Electric lighting is put to the test at the San Francisco exposition. Thirty thousand incandescent bulbs and thousands of arc lamps and searchlight projectors are called into play. On the special fireworks nights the combined searchlights brought into use equal 3,600,000,000 candle power, sufficient to light a city of 200,000 inhabitants. I shall not attempt to describe the golden glories of the night illumination. It gives the best imitation of the northern lights on a huge scale that I have ever witnessed. A poet must picture it, not a scribe.—John A. Slescher in Leslie's.

WE INVITE

You Know Them.

The world contains some tiresome men, And I met one of them today; They always do their talking when They haven't anything to say.

Paw Knows Everything.

Willie—Paw, who killed the dead languages?
Paw—I guess they must have been talked to death by the women folks, my son.

Maw—Willie, you go right in the house and take a dose of medicine.

Hoo-Hoo!

Of course, my son, you've often heard it said the owl's a wise bird. He is a wise bird, that is true; He always seems to know who's who.

An Optimist.

"I hear Smith had both his legs cut off," said Jones. "That is certainly tough, isn't it? He always was such a cheerful fellow."
"He is still cheerful," replied Brown. "I asked him how it felt to have no legs, and he told me that he had no kick coming."

The Wise Fool.

"Clothes do not make the man," observed the sage.
"Oh, I don't know," replied the fool. "Suits have made many a lawyer."

The Thoughtful Editor.

Editors as a rule are kind hearted and liberal. An exchange tells of a subscriber who died and left a fourteen years' subscription unpaid. The editor appeared as the lid of the coffin was being screwed down and put in a linen duster, a thermometer, a palm leaf fan and a receipt for making ice.—Todd County Progress.

Oh, Go on and Say It!

Our daily lives have been a fluke, And things have seemed real punk, And all because old Luke McLuke Went on a two weeks' vacation.
—Nobleville (Ind.) Gang.

Can It Bee?

Dear Luke—You should not holler about the high cost of living. Just think of the bee. He travels 2,364,286 miles for one pound of honey, and you get it for 20 cents. That means .0000080460 of 1 cent per mile.—Harrisonburg, Va.

Too Much Smoke.

State versus Thomas Clark, smoking cigarettes; confessed; \$1 and costs.—Lincoln (W. Va.) Monitor.

Yes, but Whaddy Ya Mean?

Dear Luke—In the cemetery at Adrian, Mich., there is a monument erected to a former member of the Adrian fire department, and the monument bears this inscription, "He Has Gone to His Last Fire."—P. L.

Things to Worry About.

The comptroller of the currency has notified the cashiers of the national banks that a careless proofreader has failed to credit the national banks with a little item of \$52,985,176.96 in the annual report.

Our Daily Special.

You make friends rapidly when you are making money that way.

Luke McLuke Says

The old fashioned man who used to raise muskmelons to feed to his hogs now has a son who pays 25 cents a throw for alleged cantaloupes.

Be good to your mother, boy. The rest of the world is busy examining your faults with microscopes. But your mother looks through the big end of a telescope when she is looking at your faults.

A rosy cheeked corn fed girl never got that way from nibbling at canary birds' tongues or mocking birds' eyebrows. And she never got that way from eating sardines out of cans. She can usually put an awful dent into a mess of corn beef and cabbage, and what she can do to a plate of pigs' knuckles and kraut is a crime. And you never saw a corn fed who wasn't a good cook.

Some men join the army when they want to be ordered around day and night, and other men get married.

After you have lived in one for awhile you will discover that it is almost as dangerous to raise your voice in a flat as it is to raise children in one.

If all the human pests were compelled to wear labels you imagine that every man in town but yourself would be labeled. But the chances are that you would be the very first party the pest catchers would tag.

You never hear of a June bridegroom. But a June or two later on you will see a sheepish looking lad pushing a baby buggy along the street, and that's him.

A man can keep his wife awake with his snoring, but he can't convince her that he is the big noise around their house.

When you realize that all women are bargain fiends you are not surprised when you get a look at the men they marry.

When staples go up in price your grocer is the first to hear of it, but when staples go down in price your grocer is the last to hear of it.

Questioning Grandma.

"Grandma," inquired her little grand son the day of her arrival, "did you sleep on your face last night?"
"Of course not, dear! Why do you ask that?"
"Cause it's all wrinkled."—Exchange.

For Dandruff, we recommend

Blackmer & Tanquary.

Backing Him Out.

Sir Herbert Tree's wit is well known among his friends, and they tell some very good stories about his funny remarks at rehearsals.

Once during the rehearsal of a certain play Sir Herbert asked a very young and by no means brilliant actor who fancied himself greatly to "step back a little." The actor did so, and Tree went on rehearsing. A little later the famous manager repeated his request, and the youth obeyed again.

Shortly afterward Tree once more asked him to "step a little farther back."

"But if I do," complained the youthful one ruefully, "I shall be completely off the stage."

"Yes," answered Tree quietly, "that's right!"—London Globe.

Wise Distribution.

"Is Jinks a careful business man?"
"Very. He never asks the same bank to discount his paper more than twice in the same week."—Richmond Times-Dispatch.

Watermelons and Canteloupes

You don't plant watermelons and canteloupes in the same row with pumpkins and cucumbers, do you? You would ruin the one without improving the other. In the selection of your bank do you take the same care as you do in planting melons and cucumbers? Do you want a bank of PERSONAL SERVICE—one that meets your needs, your requirements. Why not call and see us?

In the meantime we are reminded that the efforts of individuals cannot change the more comprehensive plan and even their activities to change the general trend frequently add strength to the movement they would check or weaken materially.

Poetry For Today

WHY THE COUNTRY IS SAFE.

Oh, why should you fear for the country m' dear,
Though our canines of war are mere spaniels?
For Woden and Thor are not lords of war
According to Josephus Daniels.
Invention's the thing and the high-brows we sing,
In process of mobilization;
And when they invent with sound and with scent
They will terrify each foreign nation!
There is Wizzard De Mudd who extracts the blood
From turnips by processes painless;
And Professor MacLake who has learned how to make
Best sellers of "Books for the Brainless."
There are chemists, a few, and dismologists, too,
All work without any dissensions,
And that's why we know we can very soon blow
Any foe to the fourth of dimensions.
—Chicago News.

Weather Report

Washington, September 16.—Ohio and Indiana — Partly cloudy Thursday, somewhat lower temperature south portion; Friday showers.
Tennessee, Kentucky and West Virginia — Generally fair Thursday and Friday; not quite so warm.
Lower Michigan — Increasing cloudiness Thursday, probably followed by showers by night; Friday showers.

THE WEATHER

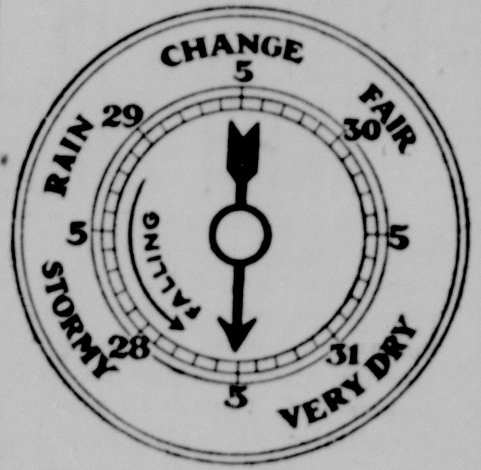

Observations of the United States weather bureau, taken at 7 p. m. Wednesday:

THE WEATHER.

Watch the Changes in the Barometer.

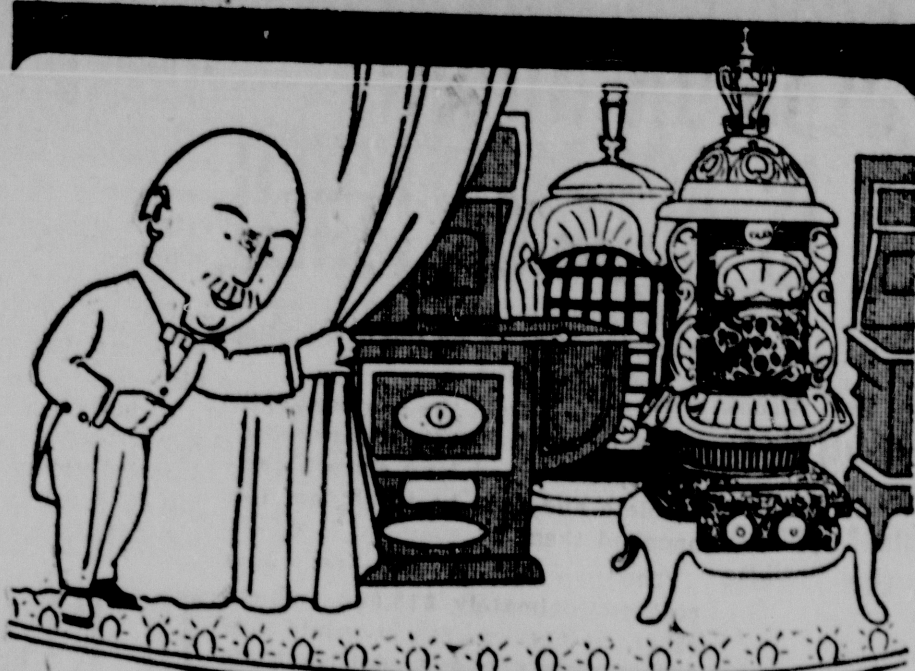

Wonderful Electric Lighting.
Electric lighting is put to the test at the San Francisco exposition. Thirty thousand incandescent bulbs and thousands of arc lamps and searchlight projectors are called into play. On the special fireworks nights the combined searchlights brought into use equal 3,000,000,000 candle power, sufficient to light a city of 200,000 inhabitants. I shall not attempt to describe the golden glories of the night illumination. It gives the best imitation of the northern lights on a huge scale that I have ever witnessed. A poet must picture it, not a scribe.—John A. Slesinger in Leslie's.

WE INVITE

PEOPLE TO CALL AT OUR PLACE OF BUSINESS AND GET ACQUAINTED WITH OUR OFFICERS

1. And get booklets showing how we receive money.
2. And loan money.
3. The Buckeye State Building and Loan Company.
4. Rankin Building, 22 West Gay Street Columbus, Ohio.
5. Assets \$9,000,000.

Our Fall Stove Show Is On

—and all of our customers—past, present, prospective—are invited to attend.

There's lots to see this year—more interesting and genuinely good specialties than were ever brought out in a season.

Estate Stoves and Ranges

hold the center of the stage. For nearly three-quarters of a century these splendid stoves have been in the spotlight—setting the standard of quality—establishing the new styles in stoves—just as surely as Paris makes the styles in clothes.

This year's production is no exception to the rule. Some remarkable improvements are embodied—new ideas that do away with the drudgery of cooking, and that enable you to heat your home with half the trouble and half the fuel that were formerly required.

Come in soon, for a look around at least. We want you to see why you should "Own an Estate."

WILL E. DALE

"Where Estates are sold"

Bits of Byplay

By Luke McLuke

You Know Them.

The world contains some tiresome men, And I met one of them today; They always do their talking when They haven't anything to say.

Paw Knows Everything.

Willie—Paw, who killed the dead languages?
Paw—I guess they must have been talked to death by the women folks, my son.

Maw—Willie, you go right in the house and take a dose of medicine.

Hoo-Hoo!

Of course, my son, you've often heard it said the owl's a wise bird. He is a wise bird, that is true; He always seems to know who's who.

An Optimist.

"I hear Smith had both his legs cut off," said Jones. "That is certainly tough, isn't it? He always was such a cheerful fellow."

"He is still cheerful," replied Brown. "I asked him how it felt to have no legs, and he told me that he had no kick coming."

The Wise Fool.

"Clothes do not make the man," observed the sage.
"Oh, I don't know," replied the fool. "Suits have made many a lawyer."

The Thoughtful Editor.

Editors as a rule are kind hearted and liberal. An exchange tells of a subscriber who died and left a fourteen years' subscription unpaid. The editor appeared as the lid of the coffin was being screwed down and put in a linen duster, a thermometer, a palm leaf fan and a receipt for making ice.—Todd County Progress.

Oh, Go on and Say It!

Our daily lives have been a fluke, And things have seemed real punk, And all because old Luke McLuke Went on a two weeks' vacation.
—Nobleville (Ind.) Gang.

Can It Be?

Dear Luke—You should not holler about the high cost of living. Just think of the bee. He travels 2,364,286 miles for one pound of honey, and you get it for 20 cents. That means 0.00008460 of 1 cent per mile.—Harrisonburg, Va.

Too Much Smoke.

State versus Thomas Clark, smoking cigarettes; confessed; \$1 and costs.—Lincoln (W. Va.) Monitor.

Yes, but Whaddy Ya Mean?

Dear Luke—In the cemetery at Adrian, Mich., there is a monument erected to a former member of the Adrian fire department, and the monument bears this inscription, "He Has Gone to His Last Fire."—P. L.

Things to Worry About.

The comptroller of the currency has notified the cashiers of the national banks that a careless proofreader has failed to credit the national banks with a little item of \$52,985,176.96 in the annual report.

Our Daily Special.

You make friends rapidly when you are making money that way.

Luke McLuke Says

The old fashioned man who used to raise muskmelons to feed his hogs now has a son who pays 25 cents a throw for alleged cantaloupes.

Be good to your mother, boy. The rest of the world is busy examining your faults with microscopes. But your mother looks through the big end of a telescope when she is looking at your faults.

A rosy cheeked corn fed girl never got that way from nibbling at canary birds' tongues or mocking birds' eyebrows. And she never got that way from eating sardines out of cans. She can usually put an awful dent into a mess of corn beef and cabbage, and what she can do to a plate of pigs' knuckles and kraut is a crime. And you never saw a corn fed who wasn't a good cook.

Some men join the army when they want to be ordered around day and night, and other men get married.

After you have lived in one for awhile you will discover that it is almost as dangerous to raise your voice in a flat as it is to raise children in one.

If all the human pests were compelled to wear labels you imagine that every man in town but yourself would be labeled. But the chances are that you would be the very first party the pest catchers would tag.

You never hear of a June bridegroom. But a June or two later on you will see a sheepish looking lad pushing a baby buggy along the street, and that's him.

A man can keep his wife awake with his snoring, but he can't convince her that he is the big noise around their house.

When you realize that all women are bargain fiends you are not surprised when you get a look at the men they marry.

When staples go up in price your grocer is the first to hear of it, but when staples go down in price your grocer is the last to hear of it.

Questioning Grandma.

"Grandma," inquired her little grand son the day of her arrival, "did you sleep on your face last night?"
"Of course not, dear! Why do you ask that?"
"Cause it's all wrinkled."—Ex.

"93" Hair Tonic

Blackmer & Tanquary.

Backing Him Out.

Sir Herbert Tree's wit is well known among his friends, and they tell some very good stories about his funny remarks at rehearsals.

Once during the rehearsal of a certain play Sir Herbert asked a very young and by no means brilliant actor who fancied himself greatly to "step back a little." The actor did so, and Tree went on rehearsing. A little later the famous manager repeated his request, and the youth obeyed again.

Shortly afterward Tree once more asked him to "step a little farther back."

"But if I do," complained the youthful one ruefully, "I shall be completely off the stage."

"Yes," answered Tree quietly, "that's right!"—London Globe.

Wise Distribution.

"Jinks a careful business man?"
"Very. He never asks the same bank to discount his paper more than twice in the same week."—Richmond Times-Dispatch.

Watermelons and Canteloupes

You don't plant watermelons and canteloupes in the same row with pumpkins and cucumbers, do you? You would ruin the one without improving the other. In the selection of your bank do you take the same care as you do in planting melons and cucumbers? Do you want a bank of PERSONAL SERVICE—one that meets your needs, your requirements. Why not call and see us?

COUNCIL SESSION SHORT LITTLE IS ACCOMPLISHED

Union Station Proposal Is First Explained, Followed by Protest From Millwood Property Owners—Sixty-five Property Owners Protest Against Special Assessment for the "White Way" Lighting.

In quick succession, Wednesday night, the Union Station proposal, a protest to vacating Paint street unless a definite new roadway connecting Millwood with the main part of town be promised, and a protest against the special assessment for the "White Way" made by 65 property owners, were presented to the council, and after the various reports were filed, council adjourned, and will meet Tuesday night of next week.

The lobby was well packed with citizens, all of whom were deeply interested either in the union station proposal, the matter of changing the roadway near the proposed station, or the proposed special assessment for "white way" lighting.

The union station project was the first considered. Will Worthington was called upon for a report and stated that the negotiations between the B. & O. and Dutch Treat Club had not been entirely satisfactory to the club or to himself, and that if better facilities were desired, the organization would fight for them, and council would adjourn until later.

Division Superintendent Brooks, of Chillicothe, was present, and discussed the plans and specifications. He believed the improvement would be a credit to the city. He said bids upon the improvement closed Tuesday of this week, and that if certain

ordinances he held were adopted, work would begin on the new station in about ten days.

Mr. Brooks said the proposed train sheds or "butterfly" sheds which were desired, had long since become obsolete and that he would not recommend them.

The new station, he said, would cost approximately \$18,000 and the other changes necessary would cost approximately \$6,000 additional. He believed that before the work was finished the total cost would be upwards of \$30,000.

It would be necessary for the C. H. & D. and D. T. & I. to use one track along the station, if the D. T. & I. became a party to the proposal.

He then submitted an ordinance to vacate Paint street, one granting permission to build the station, two other ordinances which the B. & O. deems essential before proceeding with the work of erecting a station.

It was at this juncture that Attorney F. A. Chaffin, representing 60 property owners in Millwood, presented a petition asking that the new roadway to be constructed should cross the B. & O. at a point 100 feet west of the C. H. & D. tracks and parallel the tracks 100 feet distant until it converged with West Temple street opposite the Ice Factory.

No protest would be made and their rights over Paint street would be waived, said Mr. Chaffin, if council would promise to build the street as desired. The petition was filed with council.

Mr. Brooks then displayed and explained the plans, and read part of the specifications for the new station.

Attorney John Logan then addressed council, stating that he held petitions signed by 65 property owners along the proposed "White Way" who objected to the special

assessment proposed to pay part of the cost of the "white way" lights. Mr. Logan explained the proposal at length, stating that it was an unnecessary procedure and that the property owners objected for various reasons, one of which was that the assessment was a lien upon the property which took the place of all others.

After some pointed remarks between President Melvin and Attorney Logan, the petition was placed on file.

A motion was then made to adjourn, and adjournment was taken accordingly. Next Monday night being show night, council will meet on the following night.

TO GIVE DATA CONCERNING NEW LIGHT CONTRACT

Owing to the great interest manifested in various phases of the new lighting plans for the city, The Herald, in an effort to obtain definite information which appeared only inferentially in the report of Mr. H. Whitford Jones to the City Council, last Saturday sent a communication to Mr. Jones in which sixteen queries were put to Mr. Jones, the answers to which are expected to greatly enlighten everyone generally upon many points in connection with the lighting contract.

In a reply just received Mr. Jones says, in part:

"Beg to acknowledge receipt of yours of the 11th inst., containing inquiries. I will be glad to answer the inquiries at the earliest possible moment. I will have to obtain some data, however, on a few of the questions before I can reply. I promise you that I will have this in your hands at the earliest possible date.

Very truly yours,
"H. WHITFORD JONES."

Through the courtesy of Mr. Jones The Herald hopes to, within the next few days, publish the information, asked for so that Washington citizens may be fully informed regarding the contract.

ROUNDING UP GANG OF COAT THIEVES

Chief D. L. Moore and his officers are busily engaged in rounding up the gang of youngsters who are alleged to have been guilty of stealing coats and cloaks from automobiles, and Chief Moore has already placed himself in position to obtain the \$20 reward for arrest and conviction of at least one of the persons who recently removed two coats from the Carl Mallow automobile in front of Craig Brothers' store.

Thursday morning Lawrence Kelly, of this city, was accused of knowing something of the last mentioned crime, and admitted that he had been with another fellow and they had taken the coats. His companion has a long police record, but young Kelly has never been arrested before. He was fined \$50 and the costs for petit larceny. The police are now searching for his companion, who is regarded as the ring-leader, alleged.

Darrell Devore, accused of stealing a number of cloaks and coats from an automobile on the fair grounds, was arrested in Columbus by Patrolman Severs. He denied his guilt, but is being held for further investigation. Meanwhile the police are busy looking for other members of the gang.

35 ATTEND LUNCH OF DUTCH TREAT CLUB

About 35 persons, including several visitors, attended the noonday luncheon of the Dutch Treat Club Thursday, and a splendid social hour was enjoyed. F. A. King of Columbus, H. H. Moser also of Columbus, Wm. Korst of Chillicothe, Mr. Metcalf, Springfield and Mr. Middleton of Columbus, were included among the guests.

Following the luncheon the Union Station proposition was discussed at some length.

BREAKS ARM IN SUDDEN FALL

Harold Abing, who has been employed in the can room at the Fayette Canning Co., had the misfortune to break his arm in a fall from the second story window.

The accident happened as the boy turned from the corridor by the door, not realizing his nearness to the window.

Just As Here—Wirthmor Waits Are Everywhere Meeting With A Wonderfully Successful Sale.

New Models on Sale Tomorrow.

Wirthmor Waists, \$1 Worth More

It does concern us much that Wirthmor Waists are meeting with such admirable success everywhere; for as a result of this continually growing volume, the standard of these excellent Waists is being continually raised. The remark is very frequently heard here, that the models in the new shipments, as they arrive, are even prettier and more appealing than any that have gone before, and many people have accustomed themselves to come in repeatedly, to see the new offerings, just as they make their appearance in our store.

The models that go on sale tomorrow are quite as pretty as any we have yet seen, and we know will sell most readily.

No. 1-7—This waist has a convertible collar and can be worn either high or low. It is made of Voile, with collar and cuffs of fine organdie. Front is prettily embroidered, seams are hemstitched and large pearl buttons used.

No. 1-8—So new and very pretty is the material here used—a fine corded Voile—that but little trimming is required to make of it a very effective model. A dainty touch of embroidery on collar and small pearl buttons suffices.

No. 1-5—The embroidery design is unique as to make of this a very distinctive waist. The seams throughout on collar, front and to join sleeves are hemstitched giving added refinement. Made of Voile.

No. 1-6—The rows of dainty embroidery—alternating with wide pleats, outlined with hemstitching, form an ensemble that is particularly pleasing. Cuffs are embroidered to match front. Back also trimmed with wide pleats and fine tucking. Crochet buttons

Wirthmor Waists Are Sold Here Exclusively.

Fall Opening of Millinery, Ladies Suits, Coats and Dress Goods Continues Tomorrow and Saturday.

CRAIG BROS.

ACCUSED MAN CONFESSES TO AWFUL CRIME

Xenia, September 16.—Lewis Haines, 46 years old, has confessed that he murdered Denman C. Duncan, of Yellow Springs, a recluse and scholar, Monday night, because he was jealous of Duncan's alleged friendliness with his 25-year-old wife, Maude.

Confronted with his wife's confession that he had killed Duncan, Haines weakened and confessed that he walked up behind the recluse as he sat reading in his home and killed him with his own hatchet.

LOCAL PEOPLE ATTEND CONVENTION

The Fifth District Convention of the C. W. B. M. and the O. M. S. met at New Holland Wednesday and Thursday, 15th and 16th. Two very interesting and instructive sessions were held Wednesday afternoon and evening, with a good attendance from Washington. All present were given a cordial welcome from the New Holland people.

There were fifteen members of the

auxiliary from Washington C. H. present and five visitors.

Those attending from this city were:

Mr. and Mrs. J. A. Van Gundy, Mrs. H. C. Conwell, Mrs. Ed Leadbetter, Mrs. Frank Morris, Mrs. J. C. Michael, Mrs. Albert Baum, Mrs. W. C. Robinson, Mrs. H. L. Spray, Mrs. O. G. Blackwell, Mrs. William Ford, Mrs. Frank Ford, Miss Frances Maddox, Miss Sturgeon, Miss Mable A. Jones, Miss Grace McCoy, Miss Bernice Sesler, Mr. and Mrs. C. O. Deer, Mrs. Irene Benjamin.

TWO TRAIN RIDERS

Two train riders were deposited in the county jail by a B. & O. detective, Wednesday night, one from New York and the other from Cincinnati.

They took their choice of going to the works or cleaning up the court house lawn, and as a result the lawn is greatly improved.

Fall Millinery Opening!

ANNA MORGAN W. Court St.

In Social Circles

In honor of their guest, Mrs. Hibben Ervin, of Detroit, Mich., Mrs. George Jackson and daughter Miss Emma entertained sixty women in a delightful fashion Thursday morning.

The guests had been invited to a "two hour session of summer school" and upon arrival, many of them tardy, were put in their respective classes.

This old fashioned school was conducted upon entirely original lines, and the "grown ups" entered into the "readin'" "writin'" and "rithmetick" and various classes as presented during the visit of the directors with all and more than boy and girl eagerness.

Miss Jackson, whose clever initiative had provided the novel feature of the entertainment, filled the role of teacher and Mrs. Lulu H. Robinson directed the music. The privileges granted pupils at the head of the class caused hilarious mirth.

The unusual warmth of the morning was forgotten in the fun of the hour and the cool inviting rooms, artistically decorated with a profusion of old fashioned flowers.

A big bowl of delicious punch refreshed the "children" often and a summer collation, carrying out a pretty yellow and white color scheme was served after the morning session.

Miss Anna Louise Ustick of Cincinnati was an out of town guest.

Departing from the usual custom of losers treating the winners, the winners of the "Thursday 500" club entertained the losers at a beautiful luncheon, of elaborate five course menu, at the home of Mrs. Roy T. McClure, at one o'clock Thursday.

The home was embowered in the flowers of early fall and the table decorations of white asters and greenery showed exquisite grace in arrangement.

The past club season has been one of many jolly games and the luncheon hour, with its clever little souvenirs suggesting that the losers "catch up" before the next season rolled by, proved a merry culmination.

The guests engaged in a game of "500" after the luncheon.

The Presbyterian church missionary society held an enjoyable September meeting on Wednesday afternoon, at the home of Mrs. Clarence Baer, with a gratifying attendance.

The assisting hostesses were Mesdames Calvin Holmes, O'Ferrill, Duffee, Harry Rankin, Woollard, Mur-

phy, Walker, Zimmerman and Miss Rilla Coffman.

The president, Mrs. Hopkins, being absent, Mrs. G. M. Ustick presided. The business of the meeting included reports from the secretaries and treasure and the box secretary. Mrs. Paul, sent in a very satisfactory report of a box for schools at Ashville, N. C. The entertaining committee, Mrs. Chas. Reid, chairman, have plans completed for an entertainment to be given the last Wednesday in September. Also the committee on nomination of officers made their report.

Mrs. Hall gave the prayer calendar and Mrs. John Wilson was leader on the program.

The first prayer by Mrs. W. B. Gage was on the question, "Tomorrow, What?"

"The Outlook of Home Missions in America" with some forty different languages and as many nations represented in the United States, it is no wonder it is spoken of as the "Melting Pot" of the World. Therefore the quotation from Dr. Josiah Strong, "He does most to Christianize the world, who does most to make the United States thoroughly Christian," comes in with force and was well applied. In Mrs. Gage's absence her paper was read by Mrs. Lulu Robinson.

Miss Mazie Kessler developed ably the topic, "The Coming of the Dawn" and her personal points gleaned from mission work in Africa were most interesting.

Miss Emma McDonald was a welcome guest after her long months of confinement to the house and the social hour after the meeting was pleasurable and dainty refreshments served.

The young men and women of Craig Brothers' store enjoyed a fried chicken picnic supper and the best kind of a time on the Pursell lawn on the corner of East and S. Fayette streets, Wednesday evening, with Miss Myrle Jones doing the honors of the home.

The first assembly dance of the season, given under the auspices of the Pythian Sisters, passed off successfully at the Pythian Castle Tuesday night, with a merry crowd of dancers and good music.

The meeting of the Wesley Chapel Mite Society, held at the home of Mrs. W. M. Vincent, Wednesday afternoon, was well attended.

After the business session Miss Norma Dodd gave a very pretty reading.

The hostesses, Mesdames Anderson Hyer, George Hyer, Price, Chas. Himmler, Emma Johnson and Fannie Kidd, served a tempting repast.

The out of town guests were Mrs. Carson of New Martinsburg and Miss Markley of Rockport, Texas.

PERSONAL PARAGRAPHS

Mr. J. F. Craig, who is now with The Electro Chemical Co., of Dayton, visited his parents, Mr. and Mrs. John Craig, north of town, the past two days.

Mrs. Frank M. Fullerton spent Thursday in Columbus, with her daughter, Miss Margaret Fullerton.

Miss Amy Eggleston leaves Friday for La Grange, O., to take up her pedagogic work in the centralized schools.

Messrs Arthur Burgett and Sherrill Clark went up to Columbus Thursday evening for the Fall Festival.

Mr. Fred McManus, who was injured in a fall from a telephone pole the first of the week, was able to leave the Fayette Hospital and go to his home Wednesday.

Mrs. David Melers came through the operation of Wednesday afternoon nicely and is reported to be resting as comfortably as possible today.

Dr. O. O. Benson, of the government Indian Reservation service, with headquarters at Washington, D. C., was the guest of Hon. C. A. Reid and family Wednesday, remaining over until Thursday morning. Dr. Benson was a Jeffersonville boy and is a cousin of Mr. W. D. Chaney, of this city.

Mrs. C. A. Reid accompanied Mr. Reid back to Columbus Thursday morning to attend the Fall Festival.

Mr. William C. Marshall of Norfolk, N. Y., is the guest of his brother, Mr. J. R. Marshall, and family.

Miss Anna Lou Ustick arrived Wednesday night from Cumberland Falls, Ky., where she spent the past fortnight and will visit her mother, Mrs. Bella L. Ustick, for a couple of weeks, before returning to her home in Cincinnati.

Mr. and Mrs. Mark Mechlin and Mrs. S. D. Morgan were motoring guests from Columbus Wednesday at the home of Mr. R. T. McClure.

Mr. and Mrs. H. C. Ireland, son James, Mrs. J. W. Hughey, Mrs. Sherman Murray and Mrs. Brooks Hughey motored to Columbus Thursday morning to attend the Fall Festival.

Mr. Alex H. Ballard has purchased the brick residence property owned by Miss Florence Ogle, on North street, adjoining the First Baptist church and is moving his family into it from the Cullen residence on S. North street. Mr. Chas. Cullen and family are moving into the Cullen property vacated.

Mr. W. P. Penry, Radnor, O., Mr. Willis Estes, Greenfield, Ind., and Mr. James Bell of Grove City, Duoc-Jersey breeders, visited Spring Hill farm Wednesday. These stockmen have been inspecting herds through-

out the sale and pronounce the herd at the Spring Hill farm the best lot of Duroc hogs seen this season.

Mr. and Mrs. Charles Johnson are moving into their pretty new home on Rawlings street. The residence is two stories and large porch, and is especially attractive in its interior finishings. Among distinctive features are built-in book cases which form the pedestal for the archway between the living room and dining room, beamed ceilings and French doors and windows.

Mrs. Will Sprenger, daughters Elizabeth and Wilhelmina, arrived

Wednesday night from Whiteface, N. H., where they accompanied Mrs. Sprenger's parents, Hon. and Mrs. Hadley, for a visit with relatives, several weeks ago. Mr. and Mrs. Hadley came as far as Boston, Mass., with them, intending to continue the trip to their home in this city. It was found upon consultation with a specialist in Boston that the earlier diagnosis, following Mr. Hadley's accident, had been incorrect, and that he had sustained a broken hip in his fall. The specialist was amazed that even such indomitable will power as Mr. Hadley had shown since his accident, had enabled him to reach Boston and insisted that he remain there for at least two weeks. The broken bones were set and Mrs. Sprenger left her father as comfortable as possible. Mr. Sprenger joined his family enroute and came home with them.

Miss Emma Smith returned Thursday from a visit in Columbus.

Mrs. Luella Herbert returned to Columbus Thursday after a visit with her sisters, Mrs. Roy Hagler and Miss Mary Robinson. The latter accompanied her back to Columbus for a short stay.

Mr. and Mrs. John A. Parrett, who spent the summer with their daughter, Mrs. A. W. Duff, are moving into the tasteful new home they have just completed in Jeffersonville.

Mr. Ray Maddox was a visitor in Columbus Thursday.

SEE SMITH'S HATS. The Best Showing We've Had in Years

In Social Circles

In honor of their guest, Mrs. Hibben Ervin, of Detroit, Mich., Mrs. George Jackson and daughter Miss Emma entertained sixty women in altogether novel and delightful fashion Thursday morning.

The guests had been invited to a "two hour session of summer school" and upon arrival, many of them tardy, were put in their respective classes.

This old fashioned school was conducted upon entirely original lines, and the "grown ups" entered into the "readin'" "writin'" and "rithmetick" and various classes as presented during the visit of the directors with all and more than boy and girl eagerness.

Miss Jackson, whose clever initiative had provided the novel feature of the entertainment, filled the role of teacher and Mrs. Lulu H. Robinson directed the music. The privileges granted pupils at the head of the class caused hilarious mirth.

The unusual warmth of the morning was forgotten in the fun of the hour and the cool inviting rooms, artistically decorated with a profusion of old fashioned flowers.

A big bowl of delicious punch refreshed the "children" often and a summer collation, carrying out a pretty yellow and white color scheme was served after the morning session.

Miss Anna Louise Ustick of Cincinnati was an out of town guest.

Departing from the usual custom of losers treating the winners, the winners of the "Thursday 500" club entertained the losers at a beautiful luncheon, of elaborate five course menu, at the home of Mrs. Roy T. McClure, at one o'clock Thursday.

The home was embowered in the flowers of early fall and the table decorations of white asters and greenery showed exquisite grace in arrangement.

The past club season has been one of many jolly games and the luncheon hour, with its clever little souvenirs suggesting that the losers "catch up" before the next season rolled by, proved a merry culmination.

The guests engaged in a game of "500" after the luncheon.

The Presbyterian church missionary society held an enjoyable September meeting on Wednesday afternoon, at the home of Mrs. Clarence Baer, with a gratifying attendance.

The assisting hostesses were Mesdames Calvin Holmes, O'Ferrill, Duffee, Harry Rankin, Woollard, Mur-

phy, Walker, Zimmerman and Miss Rilla Coffman.

The president, Mrs. Hopkins, being absent, Mrs. G. M. Ustick presided. The business of the meeting included reports from the secretaries and treasure and the box secretary, Mrs. Paul, sent in a very satisfactory report of a box for schools at Asheville, N. C. The entertaining committee, Mrs. Chas. Reid, chairman, have plans completed for an entertainment to be given the last Wednesday in September. WON'T ATTEMPT TO HALT LOAN

Government Sees No Reason Why It Should Interfere.

HAS NO PART IN NEGOTIATIONS

Will Not Formally Approve of the Loan, but Neither Will It Seek to Prevent It—Views With Some Concern the Agitation Against Proposed Loan and Hopes Berlin Will Not Protest Against It.

Washington, Sept. 16.—Administration officials are observing carefully the situation that is developing throughout the country as the result of negotiations looking to the floating of a huge Anglo-French credit loan. Not being in any way a participant in the loan negotiations, the chief interest of the government in the situation is such as it may have upon the relations between the United States and Germany. Consequently, the agitation which, according to representations, pro-Germans are fomenting through out the banking circles of the country, is viewed at Washington with much regret and some concern.

The attitude of the administration toward the loan is absolutely definite and fixed. The president and his advisers see in the negotiations nothing which they have power to prevent and nothing against which they should seek to exercise a restraining influence. The administration would not formally approve of the loan, but neither will it seek to prevent it. Moreover, officials are hopeful that the German government will not lodge a protest against the loan.

The billion dollar loan, according to advices from New York, probably will be divided into two and possibly four separate series of equal amounts. Bonds upon which the loan will be granted will bear not less than 5 per cent interest and will be payable in dollars free from British income tax requirements. The bonds are to be payable in either five or ten years. Possibly one series will mature in five and the other in ten years. This has not been decided.

WOULD PREVENT LOAN

Philadelphia, Sept. 16.—An appeal to the American people to prevent the Anglo-French \$1,000,000,000 loan was

telegraphed to every part of the United States from this city by Dr. Charles Hexamer, president of the National American Alliance. The message was a warning against what he terms the "most sinister influence in our national life, the money trust," which Dr. Hexamer asserted was in a conspiracy against the American people. It asks that all citizens appeal to the president and the secretary of state to thwart the loan and that all bank depositors protest against their money being used.

MEET IN SECRET

New York, Sept. 16.—After two days of visiting in the financial district, in which they had sounded the views of many local and out-of-town financiers, the members of the Anglo-French financial mission met a number of prominent bankers at the Hotel Biltmore. Because of threatening letters received and the fear of some demonstration by individuals incited by incendiary publications and advertisements, the meeting was conducted with the greatest secrecy.

A member of the Anglo-French mission said: "I consider that a loan will be amply secured by the good name and promise of the British and French governments. Naturally an exterior loan of this character will have priority over domestic loans. It should be considered a good investment. We are not bound to accept any terms that may be offered, and unless we get those we consider proper we can abandon the idea of a credit and go elsewhere."

He was asked as to collateral. "France and England themselves are not good for the loan certainly their collateral is not," was the reply.

American securities held abroad were suggested. "If we had those to put up we could sell them and avoid the necessity for the loan," was the comment.

NOTHING TO WORRY ABOUT

New York, Sept. 16.—Assurance that negotiations between Germany and the United States concerning German guarantees of safety for American ships and passengers will come to a stop within two weeks, was made by Count Von Bernstorff, the German ambassador. The ambassador was very optimistic. More than anything else he seemed to deplore the anxiety of the American people as to the outcome of the German-American diplomatic exchanges. He declared that the American people should be told that there is absolutely nothing to worry about.

"Can we say that you and Secretary Lansing are in perfect accord?" the ambassador was asked. "Yes, you can say that we are agreed on the method to be followed in coming to an agreement," he answered.

CLERK RESIGNS

Upper Merion, O., Sept. 16.—Joseph Fleck, a township clerk, has resigned. He has been indicted on three counts.

FOOD SITUATION SLOWLY IMPROVES

Mexico City, Sept. 16.—Information, said to have been given out by the American Red Cross, that 90 per cent of the deaths in this city in August resulted from starvation, is denied by the health officials here, who say that of 2,000 deaths only slightly more than 10 per cent were from starvation. They assert that the situation is now greatly improved. Three hundred thousand kilograms of corn was received here, which will be distributed free or sold cheaply. This is the first receipt of grain for several weeks and it will relieve the situation greatly.

TAFT TALKS

Los Angeles, Sept. 16.—Declaring that the United States is nearer intervention in Mexico than ever before and that the administration's policy of "watchful waiting" was one that neither "watched" nor "waited," ex-President William H. Taft celebrated his fifty-eighth birthday anniversary here. "I am not anxious to go to war with Mexico," said Mr. Taft, "as I know what that entails, but I am afraid we will have to act."

ERROR IN PETITION

Cincinnati, Sept. 16.—Common Pleas Judge Max B. May was designated by Presiding Judge Fred L. Hoffman to hear the disputes as to the signatures on the McDermott law referendum petitions filed with the board of elections by persons opposed to the new law. Most of the signatures were secured by Democratic party workers. Errors are said to abound in the petitions.

RULING ON SIGNATURES

Columbus, Sept. 16.—Signatures to McDermott referendum petitions are invalid if the street and number are inconsistent with the ward and precinct attached to the name, and boards of election must proceed to establish the insufficiency of such signatures, Attorney General Turner held in his opinion to Prosecuting Attorney Duncan of Franklin county.

HOPPEN ELECTED DISTRICT CHIEF

Lima, O., Sept. 16.—W. W. Hoppen, Hamilton, was elected district chief of the Tribe of Ben Hur for western central Ohio at the close of the fifteenth annual district convention here. Hamilton was chosen for the 1916 meeting place.

FINDS MOTHER DEAD

Massillon, O., Sept. 16.—When Mrs. Allen Ginter arrived here from Newark to visit her mother, Mrs. Crescentia Ess, seventy-one, she found the body of the latter lying in a stairway of her house, where she had fallen dead of apoplexy.

SWALLOWS MERCURY

Deaf, N. J., Sept. 16.—Newman Erb, railroad president and financier, is critically ill in his summer home here as a result of taking two bichloride of mercury tablets in mistake for tablets he was taking for stomach trouble.

NEW INSURANCE

London, Sept. 16.—Ambassador Page has taken out a policy insuring his residence against damage by Zeppelins. It is understood that the ambassador has leased the home for a period of years.

DIES AT 94

Fremont, O., Sept. 16.—Mrs. Betsy Vickery, ninety-four, the oldest woman in Fremont, is dead. She leaves twenty-one great-grandchildren and several great-great-grandchildren.

The secretary of the Dutch navy has issued a special proclamation expressing his appreciation of the work done thus far by the Dutch naval mine layers, whose duty since the European war began has largely been the removal of the mines of other nations which are blown into Dutch territorial waters. More than a dozen of the men have been killed in performing the risky operation of blowing up these mines or taking them apart. Altogether 234 mines of foreign origin have been washed upon Dutch ground and put out of harm's way.

SCENES AROUND THE HAGENBECK-WALLACE CIRCUS IN WASHINGTON C. H. MONDAY, SEPTEMBER 20

MAN CHARGED WITH MURDER

Springfield, O., Sept. 16.—Lewis Haynes, co-tenant with Denman C. Duncan in the former Yellow Springs hotel, was arrested at Yellow Springs by Marshal James Lawson in connection with the murder of Duncan.

WOMAN AND BABE REPORTED MISSING

Cleveland, Sept. 16.—Police are searching for Mrs. Elsie Wilks, twenty-three, who is missing with her three-months-old baby girl. Mrs. Wilks left home Sept. 1, leaving a note in which, her husband says, she threatened to commit suicide.

TO MAKE DYES

New York, Sept. 16.—One of the large plants built by Thomas A. Edison for the production of bensol will enter soon upon the manufacture of dyestuffs, according to Dr. Thomas H. Norton.

The blood more stirs to rouse a lion than to start a hare.—Shakespeare

Early History of Rubber.
Rubber is first known to history as a plaything. It was during Columbus' second voyage that Herrera observed that the inhabitants of Haiti played a game with balls "made of the gum of a tree." Even as early as the beginning of the seventeenth century, however, the Spaniards used rubber to waterproof their cloaks, but the fact attracted no attention in the old world, and it was not until the eighteenth century that the rubber industry began. Early writers mention an oil extracted from rubber which was taken medicinally with cocoa.

Before and After.
Before marriage he has a duck fit if she sees him with a shave and massage that are less than two hours old or the perfect poise of his correct tie disturbed a hair's breadth, but afterward he comes to the table with his shoestrings untied, no collar on and a stubby growth of beard that would play a tune if you ran it through a music box.—Judge.

The Addition.
Cawker—I've had another addition to my family since I saw you last. Cumso—You don't say! Boy or girl? Cawker—Son-in-law.—Puck.

WON'T ATTEMPT TO HALT LOAN

Government Sees No Reason Why
It Should Interfere.

HAS NO PART IN NEGOTIATIONS

Will Not Formally Approve of the
Loan, but Neither Will It Seek to
Prevent It—Views With Some Con-
cern the Agitation Against Proposed
Loan and Hopes Berlin Will Not
Protest Against It.

Washington, Sept. 16.—Adminis-
tration officials are observing carefully
the situation that is developing
throughout the country as the result
of negotiations looking to the floating
of a huge Anglo-French credit loan.
Not being in any way a participant in
the loan negotiations, the chief inter-
est of the government in the situation
is such as it may have upon the rela-
tions between the United States and
Germany. Consequently, the agitation
which, according to representations,
pro-Germans are fomenting through-
out the banking circles of the coun-
try, is viewed at Washington with
much regret and some concern.

The attitude of the administration
toward the loan is absolutely definite
and fixed. The president and his ad-
visers see in the negotiations nothing
which they have power to prevent and
nothing against which they should
seek to exercise a restraining influ-
ence. The administration would not
formally approve of the loan, but nei-
ther will it seek to prevent it. More-
over, officials are hopeful that the
German government will not lodge a
protest against the loan.

The billion dollar loan, according to
advices from New York, probably will
be divided into two and possibly four
separate series of equal amounts.
Bonds upon which the loan will be
granted will bear not less than 5 per-
cent interest and will be payable in
dollars free from British income tax
requirements. The bonds are to be
payable in either five or ten years.
Possibly one series will mature in five
and the other in ten years. This has
not been decided.

WOULD PREVENT LOAN

Philadelphia, Sept. 16.—An appeal
to the American people to prevent the
Anglo-French \$1,000,000,000 loan was

NOW YOUR CORN MUST GO

Dr. Hunt Discovers Method that Kills
Corns by Penetration. ONLY 10c.

That old corn, that stubborn corn, that
soft corn, that sore corn, the corn that will
come back, you can now get rid of it once
and for all, for Dr. Hunt of Sidney, Ohio,
has discovered the scientific principle that
makes corns go easily and painlessly.

Dr. Hunt's New Corn Cure does its work
by penetration. That is Nature's own way.
Goes to the very root of the corn. Corn lifts
out, root, body and branch in two days.
No paring. No dangerous caustic in-
gredients. No liquids to dry out. No
bulky pads or greasy salves. Dr. Hunt's
New Corn Cure comes in ready-to-apply
plaster form. Trim plaster exact size of corn
and apply. More than two applications are
seldom necessary for the most stubborn case.
Your corn eases up at once. The soothing
penetrating ingredient works without dis-
comfort. In two days you have no corn.
This is a doctor's discovery. The result of
life-time study.

And a box-full costs you only ten cents.
Guaranteed or money refunded. Sold by
all druggists and shoe dealers. Or, send ten
cents in stamps to American Chemical
Company, Sidney, Ohio.

Large box containing 20 plasters,
twenty-five cents.

COX'S GARAGE—S. Fayette Street

FOOD SITUATION SLOWLY IMPROVES

Mexico City, Sept. 16.—Information
said to have been given out by the
American Red Cross, that 90 per cent
of the deaths in this city in August
resulted from starvation, is denied by
the health officials here, who say that
of 2,000 deaths only slightly more than
10 per cent were from starvation.
They assert that the situation is now
greatly improved. Three hundred
thousand kilograms of corn was re-
ceived here, which will be distributed
free or sold cheaply. This is the first
receipt of grain for several weeks and
it will relieve the situation greatly.

TAFT TALKS

Los Angeles, Sept. 16.—Declaring
that the United States is nearer inter-
vention in Mexico than ever before
and that the administration's policy
of "watchful waiting" was one that
neither "watched" nor "waited," ex-
President William H. Taft celebrated
his fifty-eighth birthday anniversary
here. "I am not anxious to go to war
with Mexico," said Mr. Taft, "as I
know what that entails, but I am
afraid we will have to act."

ERROR IN PETITION

Cincinnati, Sept. 16.—Common Pleas
Judge Max E. May was designated by
Presiding Judge Fred L. Hoffman to
hear the disputes as to the signatures
on the McDermott law referendum
petitions filed with the board of elec-
tions by persons opposed to the new
law. Most of the signatures were se-
cured by Democratic party workers.
Errors are said to abound in the pe-
titions.

RULING ON SIGNATURES

Columbus, Sept. 16.—Signatures to
McDermott referendum petitions are
invalid if the street and number are
inconsistent with the ward and pre-
dict attached to the name, and
boards of election must proceed to es-
tablish the insufficiency of such sig-
natures, Attorney General Turner
held in his opinion to Prosecuting At-
torney Duncan of Franklin county.

HOPPEN ELECTED DISTRICT CHIEF

Lima, O., Sept. 16.—W. W. Hoppen,
Hamilton, was elected district chief of
the Tribe of Ben Hur for western cen-
tral Ohio at the close of the fifteenth
annual district convention here. Ham-
ilton was chosen for the 1916 meeting
place.

FINDS MOTHER DEAD

Massillon, O., Sept. 16.—When Mrs.
Allen Ginter arrived here from New-
ark to visit her mother, Mrs. Cresen-
tia Ess, seventy-one, she found the
body of the latter lying in a stairway
of her house, where she had fallen
dead of apoplexy.

SWALLOWS MERCURY

Deaf, N. J., Sept. 16.—Newman Erb,
railroad president and financier, is
critically ill in his summer home here
as a result of taking two bichloride of
mercury tablets in mistake for tab-
lets he was taking for stomach trouble.

NEW INSURANCE

London, Sept. 16.—Ambassador
Page has taken out a policy insuring
his residence against damage by Zepp-
elins. It is understood that the am-
bassador has leased the home for a
period of years.

DIES AT 94

Fremont, O., Sept. 16.—Mrs. Betsy
Vickery, ninety-four, the oldest wom-
an in Fremont, is dead. She leaves
twenty-one great-grandchildren and
several great-great-grandchildren.

The secretary of the Dutch navy has
issued a special proclamation express-
ing his appreciation of the work done
thus far by the Dutch naval mine lay-
ers, whose duty since the European
war began has largely been the re-
moval of the mines of other nations
which are blown into Dutch territorial
waters. More than a dozen of the men
have been killed in performing the
risky operation of blowing up these
mines or taking them apart. Altogether
234 mines of foreign origin have been
washed upon Dutch ground and put
out of harm's way.

SCENES AROUND THE HAGENBECK-WALLACE CIRCUS
IN WASHINGTON C. H. MONDAY, SEPTEMBER 20

MAN CHARGED WITH MURDER

Springfield, O., Sept. 16.—Lewis
Haynes, cotenant with Denman C.
Duncan in the former Yellow Springs
Hotel, was arrested at Yellow Springs
by Marshal James Lawson in connec-
tion with the murder of Duncan.

WOMAN AND BABE REPORTED MISSING

Cleveland, Sept. 16.—Police are
searching for Mrs. Elsie Wilks, twenty-
three, who is missing with her
three-months-old baby girl. Mrs. Wilks
left home Sept. 1, leaving a note in
which, her husband says, she threat-
ened to commit suicide.

TO MAKE DYES

New York, Sept. 16.—One of the
large plants built by Thomas A. Edi-
son for the production of bensol will
enter soon upon the manufacture of
dyestuffs, according to Dr. Thomas H.
Norton.

The blood more stirs to rouse a lion
than to start a hare.—Shakespeare

Early History of Rubber.

Rubber is first known to history as a
plaything. It was during Columbus'
second voyage that Herrera observed
that the inhabitants of Haiti played a
game with balls "made of the gum of
a tree." Even as early as the begin-
ning of the seventeenth century, how-
ever, the Spaniards used rubber to wa-
terproof their cloaks, but the fact at-
tracted no attention in the old world,
and it was not until the eighteenth
century that the rubber industry be-
gan. Early writers mention an oil ex-
tracted from rubber which was taken
medicinally with cocoa.

Before and After.

Before marriage he has a duck fit if
he sees him with a shave and mas-
sage that are less than two hours old
or the perfect poise of his correct tie
disturbed a hair's breadth, but after-
ward he comes to the table with his
shoestrings untied, no collar on and a
stubby growth of beard that would
play a tune if you ran it through a
music box.—Judge.

The Addition.

Cawker—I've had another addition
to my family since I saw you last.
Cumso—You don't say? Boy or girl?
Cawker—Son-in-law.—Puck.

Corn Limpers! Use "Gets-It" and Smile!

Corns Come Right Off, Clean and Quick! You Needn't Limp, or Fuss With Your Corns Any More!

What's the use of spoiling a good time for yourself by limping around with those corns? It's one of the easiest things in the world, now, to get rid of them. "Gets-It" does it

"These Corns Come Right Off, Clean As a Whistle, by Using 'Gets-It'."

the new way. That's why "Gets-It" has become the corn remedy of America, the biggest selling corn remedy in the world, preferred by millions. Do you remember that toe-eating salve you tried, that sticky tape, that toe-eating bandage, the gouging you've done with knives, razors and scissors? Well now, forget them all. No more fussing, no more pain. Whenever you use simple, easy "Gets-It," the corn is doomed, sure. So is every callus, wart or bunion. Never cut corns or calluses. It makes them grow that much faster and increases the danger of blood poisoning. No cutting is necessary by using "Gets-It." Use it tonight and end your corny existence. "Gets-It" is sold by all druggists, in a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Washington C. H., and recommended as the world's best corn remedy by Brown's Drug Store and Frank Christopher.

Red Cross Ball Blue will wash double as many clothes as any other. Always ask for Red Cross Ball Blue.

CIVILIANS ORGANIZE INTO A NAVAL RESERVE.

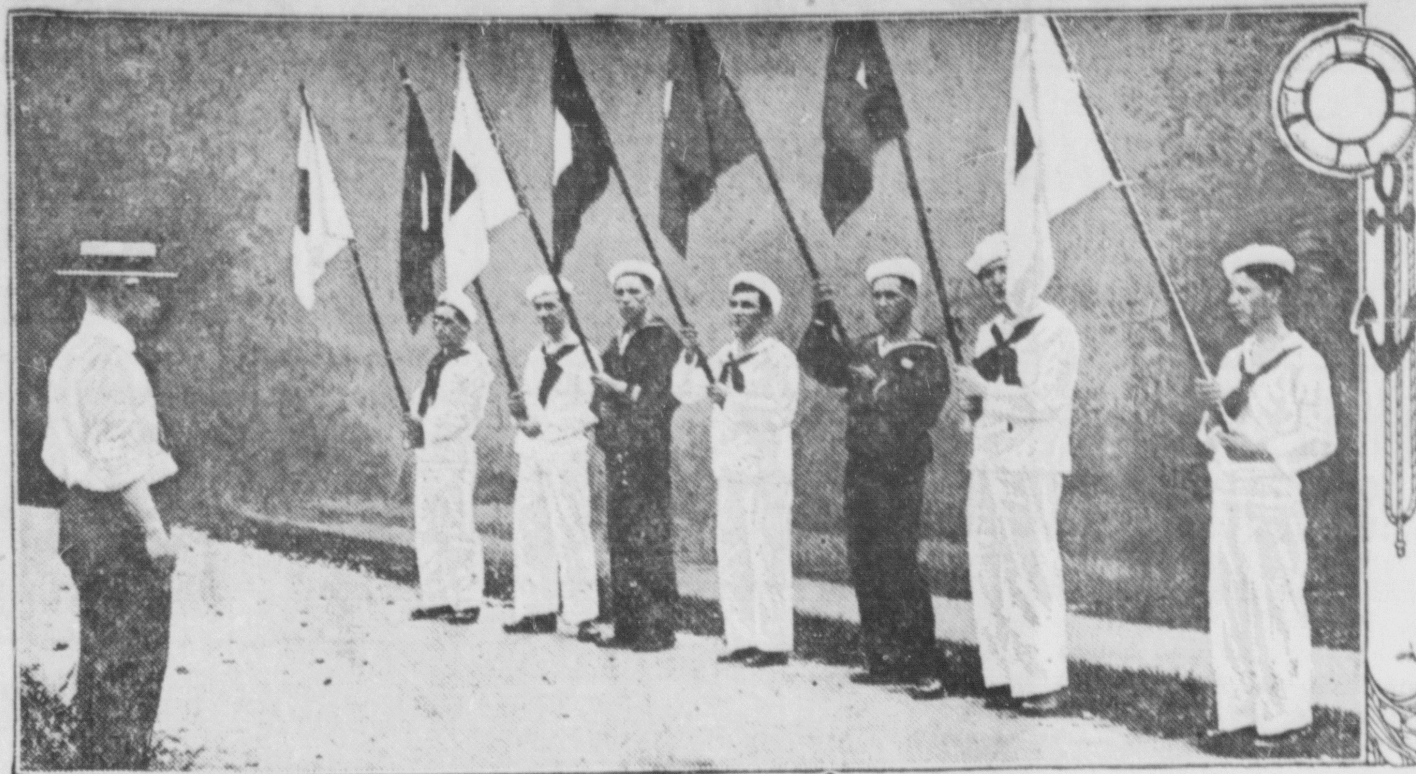

Photo by American Press Association.

The first instruction of United States volunteer naval reserves in the art of wigwagging. The reserve has been organized by Lieutenant Charles M. Steinert, formerly of the naval militia, and any one who can provide a uniform can assist in protecting his country. Secretary Daniels will be asked to recognize the reserve and perhaps supply machine guns and a navy cutter next spring. The drill was held at Riverside drive, New York city, and messages wigwagged to the Palisades, across the river.

Home Merchants have it, no doubt.

COALING WARSHIPS AT SEA.

Sixty Tons of Fuel an Hour Whirled From Vessel to Vessel.

How the British vessels of war are coaled while sailing through heavy seas at a rate of twelve miles an hour without hindering their activities in any way is told in the Manchester Guardian:

A collier packed to the hatches with coal gets into touch by wireless with a battleship whose bunkers need to be replenished. On sighting the vessel the supply ship maneuvers until it is within 100 feet of the battleship. The collier then dispatches a small boat that carries two cables. One end of each is attached to the masthead of the supply vessel. The lines pay out as the boat advances, and when it reaches the warship the sailors fasten the cables to the stern of the ship on the port and starboard sides.

The two ships, therefore, travel in a straight line fastened together, while from the mast of the collier to the deck of the warship stretches a transport cable for carrying coal bags. Sacks of coal that weigh a ton are hoisted from the foot of the collier's mast to a platform at its head, below which there is a net to protect deck hands from falling pieces of coal. By means of wheels that run on the cable automatic winches force the load along the sloping transport line at a rate of 3,000 feet a minute. On reaching the deck of the battleship the load is automatically released, and the transporter starts on its return journey.

By means of this apparatus sixty tons of coal can be carried every hour across the gap of water that separates the supply ship from the battleship. The great advantage is that both vessels can move at the rate of twelve knots an hour while the coaling goes on.

Paragraphers who knock the weather man for too much rain may be of the kind "who don't know enough to go in when"—and so forth.

It is a good general who knows when he is licked, and if Villa's reasonableness is due to his defeats he must be "some" general.

FURNISHING A ROOM.

Try to Convey the Impression of Repose and Hominess.

The furniture which we select should be designed for its livable qualities. It is not a question of whether the room is furnished consistently with Louis XVI. furniture or with empire or with something else, but whether the furniture combines with the walls and floors and ceiling to complete a room with a single impression—hominess, restfulness, repose.

Now, repose and restfulness depend very largely upon color harmony, and it is therefore well that our furniture harmonize in this respect. A room which contains a chair or two in walnut, others in mahogany and fumed oak and a sofa in golden oak cannot help being bad. Such a room is bound to affect the nerves of every sensitive person who comes into the room.

For this reason a room should be very predominantly mahogany in color, very predominantly something else, but it should not be a mixture. With a paneled interior of gray, mahogany will go very beautifully, whether it be Chipendale, Sheraton or colonial or all three mixed.—Lionel Robertson and T. C. O'Donnell in Good Health.

Jaggery Sugar.

Though a Tamil poem enumerates 800 ways in which the Palmyra palm may be used, one of its most interesting uses is the production of a sugar called jaggery. This is the result of boiling down the fresh juice and is one of the chief sugars of South India. Four or five quarts per tree per day is the yield for four or five months. Once in every three years the sap drawing process is omitted, as otherwise the tree would die. The tree begins to yield at fifteen years and continues for about fifty years. The female tree yields about twice as much sap as the male. Three quarts of this sap make one pound of sugar or jaggery, which is the chief sugar used by the poor classes of India.—Argonaut.

GRAVE DANGER LURKS IN
WATER FROM DUG WELLS

Analysis From State Board of Health Shows City Water Is Pure, But Water From Dug Well Is Highly Dangerous—Repeated Analysis Indicates Danger in Dug Well Water.

It will be good news to Washington citizens generally to know that the water furnished by the Washington Water Company again has been pronounced absolutely pure with not the least danger arising from drinking it "raw."

It will be equally interesting to know that samples of water collected from a dug well was pronounced dangerous and its use for drinking purposes ordered discontinued in order to prevent the persons using it from contracting typhoid fever.

The reports have been received by Health Officer John Byron, who upon September first collected several samples of water from the city mains and the dug wells and sent to the State Board of Health for analysis and report.

Samples of the city water were collected at the pumping station, and

found to be absolutely pure. Another sample was taken from the mains in the central portion of the city and still another from the mains in the southern part of the city and in each instance no dangerous content was discovered by the chemist who made the analysis.

The water collected from the dug well, which was located on Washington avenue, was found to contain excessive organic pollution and dangerous to use without boiling. The well will be abandoned.

In two years time only one dug well has been found to contain water which could be used in safety without boiling, all other dug wells showing pollution sufficient to seriously menace the health of persons using it.

It will be seen by the above that it is a very dangerous proceeding to use water from dug wells anywhere in the city where pollution is apparent, and this includes virtually every part of the city.

Last year in eight cases of typhoid coming under the observation of the local authorities, all were traced to the use of water from dug wells. One death resulted.

This year three cases out of five of typhoid fever were directly traceable to using water from dug wells.

SERVICE DEPARTMENT
IS SHORT OF WORKMEN

Service Director Gerstner is in urgent need of 30 more men to go to work Friday morning, but so far he has been able to obtain barely enough to keep the work moving.

The men are wanted particularly for the Leesburg avenue sewer work, and there will be ample work for a large number of men on public work for sometime to come.

es-1T mJotoc,lm

WILBUR GRIFFITHS
WILL SPEAK HERE

Wilbur Griffiths, a socialist and well known speaker, will speak in this city Saturday, and will, in all probability, address open air meetings on the issues of the coming election.

He will speak on the Stability League movement and it is understood he will speak from the shoulder.

CASE POSTPONED
UNTIL TUESDAY

In the case of Ada Hays against J. W. Hays, for possession of a minor child, the hearing has been continued over until next Tuesday, when it will be resumed before Judge Allen in Probate court.

A number of witnesses have been examined, and the argument will be taken up Tuesday when the case is reopened.

GOT A LICENSE?
HUNTERS ARE BUSY

Squirrel hunters are busy making Mr. Fox Squirrel and his frisky companion, Mr. Gray Squirrel, keep close home to keep from falling into the hunting bag.

The law came in Wednesday and a large number of persons were out after the squirrels, many bagging several within a short time.

Editor The Herald:

The would-be joker who kept the residents west of the court house, for blocks, awake at two o'clock last night, by torturing a dog with a tin can tied round its body arousing all the other canines into barking, should be made to suffer for the fiendish act. The night prowlers and boozers are making the up town district anything but peaceful during the night.

GRAVE DANGER LURKS IN
WATER FROM DUG WELLS

Analysis From State Board of Health Shows City Water Is Pure, But Water From Dug Well Is Highly Dangerous—Repeated Analysis Indicates Danger in Dug Well Water.

It will be good news to Washington citizens generally to know that the water furnished by the Washington Water Company again has been pronounced absolutely pure with not the least danger arising from drinking it "raw."

It will be equally interesting to know that samples of water collected from a dug well was pronounced dangerous and its use for drinking purposes ordered discontinued in order to prevent the persons using it from contracting typhoid fever.

The reports have been received by Health Officer John Byron, who upon September first collected several samples of water from the city mains and the dug wells and sent to the State Board of Health for analysis and report.

Samples of the city water were collected at the pumping station, and

found to be absolutely pure. Another sample was taken from the mains in the central portion of the city and still another from the mains in the southern part of the city and in each instance no dangerous content was discovered by the chemist who made the analysis.

The water collected from the dug well, which was located on Washington avenue, was found to contain excessive organic pollution and dangerous to use without boiling. The well will be abandoned.

In two years time only one dug well has been found to contain water which could be used in safety without boiling, all other dug wells showing pollution sufficient to seriously menace the health of persons using it.

It will be seen by the above that it is a very dangerous proceeding to use water from dug wells anywhere in the city where pollution is apparent, and this includes virtually every part of the city.

Last year in eight cases of typhoid coming under the observation of the local authorities, all were traced to the use of water from dug wells. One death resulted.

This year three cases out of five of typhoid fever were directly traceable to using water from dug wells.

SERVICE DEPARTMENT
IS SHORT OF WORKMEN

Service Director Gerstner is in urgent need of 30 more men to go to work Friday morning, but so far he has been able to obtain barely enough to keep the work moving.

The men are wanted particularly for the Leesburg avenue sewer work, and there will be ample work for a large number of men on public work for sometime to come.

es-1T mJotoc,lm

WILBUR GRIFFITHS
WILL SPEAK HERE

Wilbur Griffiths, a socialist and well known speaker, will speak in this city Saturday, and will, in all probability, address open air meetings on the issues of the coming election.

He will speak on the Stability League movement and it is understood he will speak from the shoulder.

CASE POSTPONED
UNTIL TUESDAY

In the case of Ada Hays against J. W. Hays, for possession of a minor child, the hearing has been continued over until next Tuesday, when it will be resumed before Judge Allen in Probate court.

A number of witnesses have been examined, and the argument will be taken up Tuesday when the case is reopened.

GOT A LICENSE?
HUNTERS ARE BUSY

Squirrel hunters are busy making Mr. Fox Squirrel and his frisky companion, Mr. Gray Squirrel, keep close home to keep from falling into the hunting bag.

The law came in Wednesday and a large number of persons were out after the squirrels, many bagging several within a short time.
